Code Python3

```
1 class Solution:
2     def fizzBuzz(self, n: int) -> List[str]:
3         Solution = []
4         for i in range(1,n+1):
5             ans =""
6             if i % 3 == 0:
7                 ans += "Fizz"
8                 if i % 5 == 0:
```
